‘A SENSE OF PLACE’

Presentation and Open Discussion

We've already heard in a discussion last year, that many people believe that the Planning system is broken. One of the key components of the Government's 'fix-it' strategy is the collaborative process of 'Placemaking'. Queensferry was one of the first communities to undertake such an exercise..*

We have invited several influential speakers to tell us about the process, the aim of which is 'to provide a sense of belonging, a sense of identity and a sense of community'. But more fundamentally, to open discussion on the whole subject of 'Place'. - what does it mean to you and me? What does it require of the built environment? What does it mean for Queensferry?

This could be one of the most important open debates that Queensferry has ever had. Please come along.
